Invited to open up for **Nick Mason's Saucerful of Secret**, SiiiLK will perform during the Nights of Fourviere festival on July 21. After 2 albums on the Musea label, W to L in 2013 and EM in 2017, the band from Lyon confirms their closeness to PF and their iconic drummer NM. In the same sphere as Floyd, Camel, Pulsar, SiiiLK plays music that will exist for you, full of harmonies, quite elaborate at times but never out of reach.
